Management's responsibility for financial reporting

The accompanying financial statements (the "Financial Statements") of Anaconda Mining Inc. ("Anaconda" or the "Company") were prepared by management in accordance with International Financial Reporting Standards ("IFRS"). Management acknowledges responsibility for the preparation and presentation of the Financial Statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances. The significant accounting policies of the Company are summarized in Note 2 of the audited annual consolidated Financial Statements for the year ended May 31, 2016.

Management has established processes, which are in place to provide them sufficient knowledge to support management representations that they have exercised reasonable diligence that (i) the Financial Statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the Financial Statements, and (ii) the Financial Statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the Financial Statements.

The Board of Directors is responsible for reviewing and approving the Financial Statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the Financial Statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the Financial Statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of these Financial Statements, they must be accompanied by a notice indicating that the Financial Statements have not been reviewed by an auditor.

The accompanying Financial Statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these Financial Statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of Interim Financial Statements by an entity's auditor.

Management's assessment of internal control over financial reporting ("ICFR")

Management is also responsible for establishing and maintaining adequate internal control over the Company's financial reporting. The internal control system was designed to provide reasonable assurance to the Company's management regarding the preparation and presentation of the Financial Statements.

General

Corporate
The Company's principal business activities are gold mining and mineral exploration with operations in Canada. It is incorporated under the laws of Ontario. The Company's common shares are listed on the Toronto Stock Exchange under the ticker symbol "ANX". The Company's registered office is located at 150 York Street, Suite 410, Toronto, Ontario, M5H 3S5.

Point Rousse Project – Baie Verte Mining District, Newfoundland, Canada
The Company owns 100% of the Point Rousse Project ("Point Rousse"), covering 6,316 hectares on the Ming's Bight Peninsula, which is situated within the larger Baie Verte Peninsula on the north-central part of Newfoundland. Point Rousse includes open pit mining operations (the "Pine Cove Pit" and "Stog'er Tight") and complete mill infrastructure capable of processing approximately 400,000 tonnes of ore and producing approximately 16,000 ounces of gold in dore bars annually. Mill throughput is currently approximately 1,300 tonnes per day with a recovery rate of 85-87%.

The Point Rousse Project originally included approximately 660 hectares of mining rights. In 2012, 2013 and 2015, the Company entered into option agreements to acquire a 100%-undivided interest in seven additional exploration properties and staked five other properties (as described in note 5). The agreements and staked claims increased the Company's land package at Point Rousse almost ten-fold to approximately 6,316 hectares.

Viking Project – Newfoundland, Canada
Anaconda also controls the Viking Project ("Viking"), which has approximately 6,225 hectares of property in White Bay, Newfoundland, located approximately 100 km by water (180 km via road) from Point Rousse and its operating mill. Viking contains the Thor Gold Deposit ("Thor Deposit") and other gold prospects and showings.

Aggregates Venture – Newfoundland, Canada
The Company entered into an agreement with Shore Line Aggregates ("SLA"), a subsidiary of the Company's local contract miner, Guy J. Bailey Ltd., where Anaconda has granted a right to SLA to mine, crush and ship an aggregates product made from Anaconda's surplus stockpiled rock and in-situ rock for $0.60 per tonne, from the Pine Cove Pit at the Point Rousse Project. SLA is working with a dry bulk ship owner/operator, Phoenix Bulk Carriers (BVI) Ltd. ("Phoenix"), a subsidiary of Pangaea Logistics Solutions Ltd., to fulfill a 3,500,000-tonne aggregates contract (the "Aggregates Venture") for a project located on the eastern seaboard of the United States. SLA and Phoenix began shipping the aggregates product at the end of September 2016 and expect it will take up to approximately 14 months to fulfill the contract.

The Great Northern Project – Newfoundland, Canada
On the Northern Peninsula, Anaconda optioned 1,325 hectares of property (the "Jackson's Arm Property") and staked 5,050 hectares of contiguous mineral lands totaling 6,375 hectares, collectively referred to as the Great Northern Project.

Tilt Cove Property – Newfoundland, Canada
The Company also optioned 350 hectares referred to as the Tilt Cove Property located 60 kilometres east of the Company's Point Rousse Project within the Baie Verte Mining District.

1. Basis of preparation

Statement of compliance
The Company's Financial Statements, including comparatives, have been prepared in accordance with and using accounting policies in full compliance with the IFRS as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of Interim Financial Statements, including International Accounting Standards ("IAS") 34, Interim Financial Reporting. The Financial Statements should be read in conjunction with

the Audited Annual Consolidated Financial Statements for the year ended May 31, 2016, which have been prepared in accordance with IFRS as issued by the IASB.

Recent accounting pronouncements
At the date of authorization of these Financial Statements, the IASB has issued the following new and revised Standards and Interpretations which are not yet effective for the relevant reporting periods:

- **IFRS 15 - Revenue from Contracts with Customers ("IFRS 15")** was issued in May 2014 when the IASB and the Financial Accounting Standards Board ("FASB") completed its joint project to clarify the principles for recognizing revenue and to develop a common revenue standard for IFRS and US GAAP. As a result of the joint project, the IASB issued IFRS 15 to establish principles to address the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. IFRS 15 is effective for annual periods beginning on or after January 1, 2018.

- **IFRS 9 - Financial Instruments ("IFRS 9")** was issued by the IASB on July 24, 2014, and will replace IAS 39, *Financial Instruments: Recognition and Measurement*. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Two measurement categories continue to exist to account for financial liabilities in IFRS 9; fair value through profit or loss ("FVTPL") and amortized cost. Financial liabilities held-for-trading are measured at FVTPL, and all other financial liabilities are measured at amortized cost unless the fair value option is applied. The treatment of embedded derivatives under the new standard is consistent with IAS 39 and is applied to financial liabilities and non-derivative host contracts not within the scope of this standard. The effective date for this standard is for annual periods beginning on or after January 1, 2018.

- **IFRS 16 - Leases ("IFRS 16")** was issued by the IASB on January 13, 2016, and will replace IAS 17, *Leases*. IFRS 16 will bring most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however, remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019.

The Company is currently evaluating the impact of these pronouncements on its Consolidated Financial Statements.

2. Cash and restricted cash

Due to the timing of payment on ordinary course accounts payable and the shipment of dore, the Company accessed and drew down on its line of credit at the end of the quarter. As such, the Company's cash balances consisted of cash on deposit with Canadian chartered banks totaling $nil (May 31, 2016 - $1,636,161). Available liquidity through the line of credit at the end of the quarter was approximately $683,000.

Restricted cash balance consists of cash collateral of $nil (May 31, 2016 - $27,500 to secure authorized limits for corporate credit cards).

3. Trade and other receivables

Point Rousse Project
The Company owns 100% of the Point Rousse Project, which contains five mining leases totaling 1,053 hectares and 28 mining licenses totaling approximately 5,263 hectares not accounted for within the mining leases. The mining leases were optioned from Tenacity Gold Mining Company Ltd. ("Tenacity") and 1512513 Alberta Ltd. (“Alberta”), a subsidiary of Coordinates Capital Corporation (“Coordinates”) and Seaside Realty Ltd. ("Seaside"), while the mining licenses were optioned from several different parties including Tenacity, Alberta, Fair Haven Resources Inc. (“Fair Haven”), Herb Froude (“Froude”), and Messrs Alexander Duffitt and Paul Strong (“Duffitt and Strong”). Five of the licenses are owned by Anaconda.

The current operating area of the Point Rousse Project comprises two contiguous mining leases (the “**Pine Cove Property**”) acquired from Tenacity totaling 660 hectares that contains the operating open pit mine, milling and processing plant and equipment and a permitted tailings storage facility. It is subject to two royalty agreements, the first with Tenacity, whereby the Company was required to pay Tenacity a net smelter royalty (“NSR”) of 3% of the metal sales from the mining lease to a maximum of $3 million. The Company fulfilled this obligation in fiscal 2015. The second is a Net Profits Interest (“NPI”) agreement with Royal Gold, Inc. (“Royal”) whereby the Company is required to pay Royal a royalty of 7.5% of the net profits, calculated as the gross receipts generated from the claims less all cumulative development and operating expenses. At February 28, 2017, the Company has determined it has approximately $36 million in expenditures deductible against future receipts.

Option Agreements
On May 7, 2012, the Company entered into a five-year property option agreement (the “Tenacity Agreement”) with Tenacity to acquire a 100%-undivided interest in 4 mineral exploration licenses (the "**Tenacity Property**") totaling 63 claims or approximately 1,540 hectares. The Tenacity Agreement requires the Company to pay to Tenacity $25,000 at closing (paid), an additional $275,000 in cash payments over the option period (of which $175,000 has been paid) and incur $750,000 in expenditures over the life of the option. At the Company’s option, 50% of the cash payments can be settled with the issuance of common shares, with value determined based on a weighted average of the 30 trading days preceding payment. The Tenacity Agreement also entitles Tenacity to an

NSR of 3% when the average price of gold is less than US$2,000 per ounce for the calendar quarter, or at 4% when the average price of gold is more than US$2,000 per ounce for the calendar quarter, with a cap on the NSR of $3 million.

On July 19, 2012, the Company entered into a five-year property option agreement (the "Fair Haven Agreement") with Fair Haven to acquire a 100%-undivided interest in 11 exploration licenses (the "**Fair Haven Property**") totaling 71 claims or approximately 1,775 hectares. The Fair Haven Property runs adjacent to the optioned Tenacity Property. The Fair Haven Agreement requires the Company to pay to Fair Haven $10,000 at closing (paid) and to fund expenditures over the life of the option to a minimum of $750,000. The Fair Haven Agreement also entitles Fair Haven to an NSR of 2% to an aggregate sum of $3 million; following this and after 200,000 ounces of gold has been sold from the Fair Haven Property, Fair Haven is then entitled to a 1% NSR.

On November 13, 2012, the Company entered into a five-year property option agreement (the "Froude Agreement") with Froude to acquire a 100%-undivided interest in 1 exploration license (the "**Froude Property**") totaling 11 claims or approximately 275 hectares. The Froude Property is contiguous and inclusive in the Point Rousse Project. The Froude Agreement requires the Company to pay to Froude $10,000 on January 1, 2013, (paid) and to fund expenditures over the life of the option to a minimum of $125,000. The Froude Agreement also entitles Froude to an NSR of 3% to an aggregate sum of $3 million; following this and after 200,000 ounces of gold has been sold from the Froude Property, Froude is then entitled to a 1% NSR.

On November 19, 2012, the Company entered into a five-year property option agreement (the "DS Agreement") with Duffitt and Strong to acquire a 100%-undivided interest in 2 exploration licenses (the "**Duffitt and Strong Property**") totaling 7 claims or approximately 175 hectares. The Duffitt and Strong Property is contiguous with and now inclusive in the Point Rousse Project. The DS Agreement requires the Company to pay to Duffitt and Strong $20,000 at closing (paid) and to fund expenditures over the life of the option to a minimum of $125,000. The DS Agreement also entitles Duffitt and Strong to an NSR of 3% to an aggregate sum of $3 million; following this and after 200,000 ounces of gold has been sold from the Duffitt and Strong Property, Duffitt and Strong is then entitled to a 1% NSR.

On November 13, 2013, the Company entered into a three-year property option agreement (the "Deer Cove Agreement") with Alberta, a subsidiary of Coordinates, to acquire a 100%-undivided interest in one mining lease, a surface lease and three exploration licenses (the "**Deer Cove Property**") totaling 48 claims or approximately 1,200 hectares contiguous to the Point Rousse Project. The Deer Cove Agreement requires the Company to pay to Alberta $25,000 at closing (paid), an additional $175,000 in cash payments over the option period which has been paid and to incur $500,000 in expenditures over the life of the option. The Deer Cove Agreement also entitles Alberta to an NSR of 3%. The Company has the right to buy back 1.8% of the NSR for $1 million.

On November 13, 2013, the Company entered into a three-year property option agreement (the "Stog'er Tight Agreement") with Alberta to acquire a 100%-undivided interest in one mining lease and one surface lease (the "**Stog'er Tight Property**") totaling approximately 35 hectares contiguous to the Point Rousse Project. The Stog'er Tight Agreement requires the Company to pay to Alberta $25,000 at closing (paid), an additional $175,000 in cash payments over the option period which has been paid and to incur $500,000 in expenditures over the life of the option. The Stog'er Tight Agreement also entitles Alberta to an NSR of 3%. The Company has the right to buy back 1.8% of the NSR for $1 million.

On July 29, 2015, the Company entered into an option agreement with Seaside to acquire a 100%-undivided interest in one mining lease (the "**Corkscrew Property**"), totaling 346 hectares contiguous with the Point Rousse Project and is required to make aggregate payments to Seaside of $75,000 (of which $50,000 has been paid) over a two-year period. Any future gold production from the Corkscrew Property will be subject to a 2% NSR, capped at $2,000,000.

The Viking Project
On February 5, 2016, the Company entered into an option agreement with Spruce Ridge Resources Ltd. ("Spruce Ridge"), to acquire a 100%-undivided interest in the Viking Property, which contains the Thor Deposit. On February 5, 2016, the Company also entered into a second option agreement with Spruce Ridge to acquire a 100%-undivided interest in the Kramer Property, which is contiguous to the Viking Property and contains numerous gold prospects and showings similar in geological character and setting to the Thor Deposit.

On January 29, 2016, Anaconda also staked an additional 2,200 hectares of prospective mineral lands contiguous to the Viking Property and Kramer Property. In total, the Company now controls approximately 6,225 hectares of property in White Bay, Newfoundland, now called the Viking Project, similar in size to Point Rousse.

Option Agreements
To earn a 100%-undivided interest in the Viking Property, the Company is required to make aggregate payments to Spruce Ridge of $300,000 over a five-year period, based on milestones to production, including a final payment of $175,000 upon commencement of commercial production. The Company has paid $50,000 to date and can pay all remaining option payments at any time during the option period to earn its 100% interest. In addition, the Company granted, at closing, warrants to Spruce Ridge to purchase 350,000 common shares of Anaconda at an exercise price of $0.10 per share, expiring three years from the date of the agreement. Further, the Viking Agreement provides for a 0.5% NSR to Spruce Ridge on the sale of gold from the Viking Property.

To earn a 100%-undivided interest in the Kramer Property, the Company is required to make aggregate payments to Spruce Ridge of $132,500 over the five-year period, beginning with an initial payment of $12,500, paid on closing, with increasing payments on the anniversary of the date of the agreement. The Company also issued 250,000 common shares, at closing, to Spruce Ridge and a 2% NSR to Spruce Ridge on the sale of gold from the Kramer Property. The NSR is capped at $2,500,000, after which the NSR will be reduced to 1%. Anaconda is required to spend a total of $750,000 in qualified exploration expenditures on the Kramer Property during the option period.

Two previous NSR agreements held by Altius Resources Inc. ("Altius") and a prospector, Paul Crocker, in relation to Viking, will be terminated upon Anaconda earning its 100% interest in the Viking Property and/or the Kramer Property. These agreements will be replaced by new NSR agreements that stipulate that the Company will pay Altius a 2.5% NSR granted on the Viking Property, a 1% NSR granted on the Kramer Property and a 1.5% NSR granted on an area of interest within 3 km of the combined Viking and Kramer Properties.

The Great Northern Project
On November 8, 2016, Anaconda entered into an option agreement (the "Jackson's Arm Agreement") with Metals Creek Resources Corp. ("MEK ") to acquire a 100%-undivided interest in 1,325 hectares (the "**Jackson's Arm Property**") and has staked 5,050 hectares of contiguous mineral lands totaling 6,375 hectares (collectively, the "Great Northern Project").

Option Agreement
To earn a 100%-undivided interest in the Jackson's Arm Property (within the Great Northern Project), the Company is required to make aggregate payments to MEK of $200,000 (of which $20,000 has been paid) in cash and 500,000 common shares of Anaconda (of which 50,000 have been issued) over a three-year period, with increasing payments on the anniversary of the date of the agreement. The Jackson's Arm Agreement provides for a 2% NSR to MEK on the sale of gold-bearing mineral products from the Jackson's Arm Property. The NSR is capped at $1,500,000, after which, the NSR will be reduced to 1%. Anaconda is required to spend a total of $750,000 in qualified exploration expenditures on the Jackson's Arm Property during the option period.

The Tilt Cove Property
On November 8, 2016, Anaconda entered into an option agreement (the "Tilt Cove Agreement") with MEK to acquire a 100% undivided interest in 350 hectares (the "**Tilt Cove Property**") located 60 kilometres east of the Company's Point Rousse Project within the Baie Verte Mining District.

Option Agreement
To earn a 100%-undivided interest in the Tilt Cove Property, the Company is required to make aggregate payments to MEK of $200,000 (of which $20,000 has been paid) in cash and 500,000 common shares of Anaconda (of which 50,000 have been issued) over a three-year period, with increasing payments on the anniversary of the date of the agreement. The Tilt Cove Agreement provides for a 1% NSR to MEK on the sale of gold-bearing mineral products from the Tilt Cove Property. Anaconda is also assuming an existing 2% NSR (the "Existing NSR") on one of the two licenses that comprises the Tilt Cove Property. 1% of the Existing NSR is purchasable for $1,250,000. Anaconda is required to spend a total of $750,000 in qualified exploration expenditures on the Tilt Cove Property during the option period.

As at February 28, 2017, and the Financial Statement report date, the Company had met all required property option commitments and accordingly the properties were in good standing.

9. Gold financing agreement

On December 17, 2015, the Company entered into an agreement with Auramet International LLC ("Auramet") through which Auramet paid USD$500,000 (USD$980 per ounce) (the "Prepayment Amount"), less fees, to Anaconda in exchange for 510 ounces of gold. Anaconda delivered these ounces to Auramet in 10 deliveries of 51 ounces per month from January to October 2016. The Prepayment Amount was priced based on a spot price at the date of the agreement of USD$1,067 per ounce. Anaconda also agreed to sell 100% of its production through Auramet until December 18, 2016. The agreement was completed as at November 30, 2016. Auramet also had the option to purchase 1,800 ounces at a strike price of USD$1,250 on December 30, 2016, which was not exercised.

On January 9, 2017, the Company entered into an agreement (the "Agreement") with Auramet International LLC

("Auramet") through which Auramet paid USD$551,304, less fees, to Anaconda in exchange for 468 ounces of gold (USD$1,178 per ounce). After fees and conversion to Canadian dollars, the Company received a net amount of $660,990 (the "Net Proceeds"). Anaconda will deliver these ounces to Auramet in 12 semi-monthly deliveries of 39 ounces each from January to June 2017. The Net Proceeds will be used for general working capital purposes.

As part of the Agreement, Anaconda granted to Auramet European style call options to purchase from the Company gold bullion as follows:

Ounces	Strike Price	Expiration Date
400	USD$1,300	December 27, 2017
400	USD$1,300	August 29, 2018

Over the nine months ended February 28, 2017, an unrealized fair value gain of $22,059 was recognized due to changes in the gold price and foreign exchange.

10. Loans

The following table provides the details of the current and non-current components of loans:

On July 13, 2016, the Company announced that it entered into a Line of Credit Agreement with the Royal Bank of Canada ("RBC") for a $1,000,000 revolving credit facility as well as a $500,000 revolving equipment lease line of credit (together the "Financing"). As part of the terms and conditions of the Financing, RBC has a first-ranking general security agreement including a specific security interest in the Company's ball mill and cone crushers. As at February 28, 2017, total bank indebtedness was $317,199. The balance on the revolving equipment lease line of credit was $nil.

11. Decommissioning liability

The provision for asset retirement obligations is as follows:

As at	**February 28 2017 $**	May 31 2017 $
Opening balance	**1,867,899**	1,311,393
Interest accretion	**31,593**	60,062
Additions	**-**	496,444
Closing balance	**1,899,492**	1,867,899

The Company's estimates of future asset retirement obligations are based on reclamation standards that meet or exceed regulatory requirements. Elements of uncertainty in estimating these amounts include potential changes in regulatory requirements, decommissioning and reclamation alternatives and amounts to be recovered from other parties. Elements of uncertainty also exist in estimating the timing of incurring the liability which depends on the ultimate closure date of the operation. The provision for reclamation is provided against the Company's operations at Pine Cove and Stog'er Tight and is based on the project plan approved by the Newfoundland and Labrador government.

During fiscal 2016, in concert with the Company's decommissioning liabilities, the Company entered into an agreement with an insurance company to provide a surety bond for $1,942,840 to the Newfoundland and Labrador government in compliance with its requirements under the approved site development plan which may only be lifted by the Newfoundland and Labrador government. During the nine months ended February 28, 2017, this surety bond was increased to $2,280,995. As additional work and/or reclamation is completed on the property, the Company will increase/decrease this bond as required by the Newfoundland and Labrador government.

12. Capital stock

Common shares
Anaconda's authorized share capital consists of an unlimited number of common shares.

On July 27, 2016, the Company announced that, pursuant to a brokered flow-through private placement, it issued 29,103,787 flow-through units of the Company (the "Units") at a price of $0.07 per Unit for aggregate gross proceeds of $2,037,265. Each Unit consists of one flow-through common share and one-half of one common share purchase warrant (the "Warrant") issued on a non flow-through basis. Each Warrant entitles the holder thereof to purchase one common share of the Company at a price of $0.10 until July 27, 2017. On a per-Unit basis, the Company has allocated $0.0699 of the price per Unit to each flow-through common share and $0.0001 of the price per Unit to the Warrant. An amount equal to the gross proceeds from the flow-through common shares ($0.0699 per flow-through common share) will be used to incur Canadian exploration expenses, as defined under the Income Tax Act (Canada), that will be renounced by the Company in favour of the purchasers of Units with an effective date of no later than December 31, 2016.

A cash commission of 6% of certain proceeds from the issuance of the Units, for a total cost of $162,036 and 1,377,055 Warrants were issued to the broker of the private placement.

As at February 28, 2017, the total proceeds of flow-through funds were spent on eligible exploration expenses.

Warrants
On February 5, 2016, the Company issued purchase warrants to Spruce Ridge entitling it to acquire 350,000 common shares, exercisable at $0.10 per share and having a three-year expiry date. The warrants issued were valued using a risk-free rate of 0.38%, an expected dividend yield of nil, an expected volatility of 106.49% and an expected life of 3 years.

On July 27, 2016, the Company issued Warrants in relation to a brokered flow-through private placement to acquire 14,551,889 common shares, which are exercisable at $0.10 per share and expiring on July 27, 2017, and 1,376,560 Compensation Warrants (the “Compensation Warrants”) which are exercisable at $0.10 per share and expire on July 27, 2017. The Compensation Warrants issued were valued using a risk free rate of 0.60%, an expected dividend yield of nil, an expected volatility of 113.33% and an expected life of 1 year.

The following table sets out the details of the outstanding warrants as at February 28, 2017:

Date of grant	Number of warrants	Remaining contractual life	Exercise price per share	Expiry date
Warrants				
February 5, 2016	350,000	1.94 years	$0.10	February 5, 2019
July 27, 2016	14,551,889	0.41 years	$0.10	July 27, 2017

15. Capital management

The Company's capital structure is adjusted based on management's and the Board of Directors' decision to fund expenditures with the issuance of debt or equity such that it may complete the acquisition, exploration, development and operation of properties for the mining of minerals that are economically recoverable. The Board of Directors does not establish quantitative return on capital criteria, but rather relies on the expertise of management and other professionals to sustain future development of the business.

The Company's mining operations are currently producing cash flow to fund ongoing working capital requirements, corporate and administrative expenses, debt service, capital expenditure requirements and other contractual obligations. The Company has previously and may supplement its cash flow and raise such funds as and when required to complete its projects or fund working capital as the needs arise.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the nine months ended February 28, 2017. Unless otherwise noted (i.e. restricted cash), the Company is not subject to externally-imposed capital requirements.

16. Financial instruments

Classifications
The Company has classified its cash and restricted cash, the gold financing agreement and forward sales contract derivatives as fair value through profit and loss, which are measured at fair value. Trade and other receivables are classified as loans and receivables, which are measured at amortized cost. Trade and other payables and loans are classified as other financial liabilities, which are measured at amortized cost.

Fair values of cash and restricted cash are based on quoted prices in active markets for identical assets, resulting in a level-one valuation. Forward sales contract derivatives and the gold financing agreement are level two. Fair values of investments are not based on observable market data, resulting in a level-three valuation. The carrying amount of the Company's financial instruments approximates fair value due to their short-term nature.

Non-hedged forward sales contract derivative
The Company enters into commodity derivatives including forward gold contracts to manage the exposure of fluctuations in gold prices. In the case of forwards, these contracts are intended to reduce the risk of declining prices on future sales. Some of the derivative transactions are effective in achieving the Company's risk management goals; however, they do not meet the hedging requirements of *IAS 39 – Financial Instruments: Recognition and Measurement*, therefore, the unrealized changes in fair value are recorded in earnings.

At February 28, 2017, the Company had completed a gold financing agreement that resulted in recognizing an unrealized fair value gain of $22,059 due to changes in the gold price and foreign exchange.

17. Property and financial instrument risk factors

Property risk
The Company's major projects are the Point Rousse and Viking Projects. Unless the Company acquires and/or develops additional mineral properties, the Company will be mainly dependent upon Point Rousse and Viking. Any adverse developments would have a material adverse effect on the Company's financial condition and results of operations.

Credit risk
Credit risk is the risk of loss associated with a counter-party's inability to fulfill its payment obligations. The Company's credit risk is attributable to cash and trade and other receivables. Cash is held with tier-1 Canadian Chartered banks; as such, management believes the risk of loss to be minimal. Trade receivables consist of amounts due from the Company's metals broker regarding processed gold and silver en route to the broker. Management believes the credit risk associated with its trade receivables to be remote as the counter-party is a well-capitalized international metals merchant. No bad debts were incurred during the nine months ended February 28, 2017 and February 29, 2016.

Liquidity risk
Liquidity risk is the risk that the Company cannot meet a demand for cash or fund its obligations as they come due. As at February 28, 2017, the Company had positive working capital of $1,269,923 (May 31, 2016 – $819,322). The Company utilizes the cash flow generated from the Point Rousse Project's operations throughout the year for its working capital requirements. If necessary, the Company may seek further financing for capital projects or general working capital purposes. As discussed previously, there can be no assurance that Anaconda will be successful in its efforts to arrange additional financing on terms satisfactory to the Company.

Market risk
Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, commodity prices and/or stock market movements (price risk).

Interest rate risk
The Company has no interest-bearing assets, other than cash in operating bank accounts and only fixed-interest liabilities. Accordingly, the Company is not exposed to significant interest rate risk. When available, the Company invests excess cash in short-term securities with maturities of less than one year, earning nominal interest.

Foreign currency risk
The Company's functional and presentation currency is the Canadian Dollar. The Company executes all gold sales in Canadian Dollars. Some of the operational and other expenses incurred by the Company are paid in US Dollars. As a result, fluctuations in the US Dollar against the Canadian Dollar could result in foreign exchange gains/losses. Given the limited exposure of US Dollar expenses, the Company considers this risk as remote. The Company has no plans for hedging its foreign currency transactions.

Commodity price risk
Commodity price risk is the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company is exposed to commodity price risk with respect to gold prices. The Company closely monitors gold prices to determine the appropriate course of action to be taken by the Company. From time to time, the Company uses derivative contracts to hedge against the risk of falling gold prices. As these derivative contracts come due there is a risk of opportunity loss if gold prices move substantially higher.

18. Subsequent events

On March 2, 2017, the Company and Orex Exploration Inc. ("Orex") entered into a definitive arrangement agreement (the "Agreement"), pursuant to which Anaconda has agreed to acquire all of the issued and outstanding common shares of Orex, by way of a court-approved plan of Arrangement (the "Arrangement"). Pursuant to the Agreement, the consideration to be received by the shareholders of Orex consists of 0.85 of a common share of Anaconda (each, an "Anaconda Share") for each common share of Orex (each an "Orex Share") held. Outstanding options of Orex ("Orex Options") that have not been duly exercised prior to the effective date on the Arrangement, will be exchanged for a fully vested option of Anaconda to purchase from Anaconda the number of Anaconda Shares (rounded down to the nearest whole share) equal to: (i) the exchange ratio, being 0.85, multiplied by (ii) the number of Orex Shares subject to such Orex Option immediately prior to the effective date of the Arrangement. Outstanding warrants of Orex ("Orex Warrants") that do not already contain adjustment provisions triggered by the Arrangement, will be amended to include such an adjustment feature, such that upon completion of the Arrangement, the holders of Orex Warrants will be entitled to receive, upon exercise of their securities, the number of Anaconda Shares which the holders would have been entitled to receive as a result of the Arrangement, if immediately prior to the effective date the holders had exercised their securities.

Following completion of the Arrangement, Orex will be a wholly owned subsidiary of Anaconda. Existing Anaconda and Orex shareholders will own approximately 54.9% and 45.1% of the combined company, respectively, on a non-diluted basis.

In March 2017, after the end of the Quarter, Anaconda received $750,000 from The Aviva Insurance Company of Canada (the "Claim Payment") regarding a business interruption claim pertaining to the failure of its regrind mill in December 2015. The Claim Payment fully settled the outstanding claim.
